The 12 sculptures were made in Maarn, the Netherlands, from march till july 2012. Thanks to Anna, my wife, for her five that kept me going and Hil, my best friend, for her reflective comments. Thanks to the forest that provided me with the necessary wood for the sculptures and for the heating of my studio.

Thanks to the earth and ash, the fresh air I could breath; the clear water of the Henschooter Meer I could swim in and above all thanks to Boris, my eldest son, and Jans, director of the "Bout & Partners" office, who both inspired me to start working as an artist again.
